Re: Recommendation for Patco

Dear Mr. Patterson,

I have worked with Rusty, Brian, and the guys from Patco in Lawton for a little over three years now and recently had the opportunity to work directly with Pat Fitts and the Oklahoma City division on a couple CNG projects, one in Stroud and one in McAlester.

Initially, I was apprehensive that Pat and the OKC division could match the same level of service, expertise and dedication I expect and receive from Rusty and the Lawton division. As the projects progressed I quickly found out that Pat and the OKC division's professionalism, work values, and expertise paralleled those I have become accustomed to, and rely on to meet project goals and schedules.

Of particular value to me, as project manager, is to work with companies and their employees that have an overcome all attitude and the ability to work with minimal supervision. Also, of importance to me as a customer is that Pat and Rusty are personally available and have the experience and expertise to identify issues before hand saving cost and time for each of our companies. Each division displays the ability to work through existing issues as effectively as possible, and recognizes the importance to ensure that our company's goals are aligned so that projects are done on time and within budget.

Pat Fitts and the OKC division of Patco share my highest recommendation with Rusty and the Lawton division.

Sincerely,

A handwritten signature in blue ink that reads "Greg McKinney". The signature is written in a cursive, flowing style.

Greg McKinney
